August 2006

ROSTER OF ASTRONOMY DEPARTMENTS WITH ENROLLMENT AND DEGREE DATA, 2005.

This roster contains detailed data from the annual Survey of Enrollments and Degrees. The survey was conducted in the fall of the 2005-06 academic year and consists of all degree-granting astronomy departments in the United States. Presented in this roster are the data reported by those departments for their 2004-05 introductory astronomy course enrollments, 2004-05 degrees and their fall 2005 undergraduate majors and graduate student enrollments.

The introductory course enrollment totals listed for each department represent the number of students who took their first term of introductory level astronomy. Departments were instructed not to include enrollments for courses that were a continuation of a sequence.

There are 76 degree-granting astronomy departments. Of these departments, 38 are combined with the physics department at the same university. The remaining 38 departments are administered separately.

All but 5 of the 76 degree-granting astronomy departments contributed to the data supplied in this year's roster (93%). Some departments only supplied partial data and consequently have an incomplete entry.

- c Department is combined with the physics department (N=38).
 - s Department is separate from the physics department (N=38).
 - m Department grants a masters as its highest astronomy degree (N=4).
 - p Department grants a PhD as its highest astronomy degree (N=39).
- GRADUATE ONLY Department has no undergraduate program in astronomy (N=8).
- FIRST YEAR** This column includes graduate students who were new to the department in the fall 2005 as well as students who entered the department in the previous winter, spring and summer.
- EXITING MASTERS** This column includes masters degrees from both masters-granting and doctoral-granting departments whose students are leaving that department with a masters.
- Data for this field were not provided.

The totals presented in the table below represent all astronomy departments. This includes data from the responding departments as well as estimated data for the non-responding departments. These estimates were derived from a department's response to the survey in a previous year.

Highest Degree Offered	Fall 2005 Undergraduate Majors		Fall 2005 Graduate Students			2004-05 Astronomy Degrees
